PrestoDB ODBC & JDBC Driver

SQL access to Presto with your analytic tool of choice

Presto, a powerful distributed in-memory query engine, provides a common SQL Engine for accessing data where it lives whether it be Hadoop, Cassandra, Kafka, MySQL and more.

With Magnitude's Simba Presto ODBC and JDBC Drivers with SQL Connector, analytic applications capable of utilizing ODBC and JDBC to connect to data sources can connect to Presto and take advantage of a modern query and execution engine designed to support the SQL those applications depend on.

Product Features

- Use SQL to access data via Presto from analytic applications such as Microsoft Excel, Power BI, SAP Cloud for Analytics, QlikView, Tableau and more.
- Transparently query data from multiple sources without the need for costly ETL processes.
- Supports both community edition and Teradata distributions of Presto.
- Presto ODBC Driver supports open-source Presto Server versions 0.160 and earlier, and Teradata Presto Server versions 0.157-t and earlier.
- Presto JDBC Driver supports Presto Server versions 0.173 and earlier, and Teradata Presto Server versions 0.167-t and earlier.
- Unicode enabled 32- and 64-bit ODBC 3.8 compliant drivers for Windows, Mac OS X, and Linux.
- Supports Kerberos Authentication.
- Leverages Presto's native filtering and aggregation capabilities.
- Simple per-host licensing (server or desktop). The license cost is the same for any number of installed processors or cores (virtual or physical).
- Departmental, enterprise and worldwide licensing available on request.

Product Specifications

- Supports 32- and 64-bit applications
- Complies with latest ODBC 3.8 specification
- Supports ANSI SQL-92
- Complies with JDBC 4.0, 4.1 and 4.2 specifications
- Supports Unicode
- Supports Windows, Linux and Mac OS X platforms

To connect data sources and applications for anytime, anywhere access, turn to Magnitude's Simba connectivity solutions.

About Magnitude

Magnitude Software leads the way in delivering corporate performance insights with solutions for corporate performance management (CPM), master data management (MDM) and data connectivity in heterogeneous environments. The Company's software and solutions drive real business results for hundreds of thousands of users around the globe. Magnitude's family of award-winning applications includes business intelligence, data warehousing, master data management, analytics and reporting, plus our Simba connectivity solutions.
